“ I was diagnosed with Idiopathic Pulmonary Fibrosis (IPF) four years ago. For over two years, I relied on prescription medications and therapies, but unfortunately, the symptoms continued to worsen. My breathing became more labored, and I experienced increasing fatigue and shortness of breath with even minimal activity. Last year, out of desperation and hope, I decided to try an herbal treatment program from NaturePath Herbal Clinic. Honestly, I was skeptical at first, but within a few months of starting the treatment, I began to notice real changes. My breathing became easier, the tightness in my chest eased, and I felt more energetic and capable in my daily life. Incredibly, I also regained much of my stamina and confidence. It's been a life-changing experience I feel more like myself again, better than I've felt in years. If you or a loved one is struggling with IPF, I truly recommend looking into their natural approach. You can visit their website at www.naturepathherbalclinic.com

“ Wayne has been our neighbor and friend for 28 years. He has always been there for all of the family even when we moved out of state to take advantage of the Sunny South he was there for our Daughter and everyone of her children, our grandchildren. We miss him already . Always there to lend a hand even when we were gone. He tarped our roof when a tornado put our deck and part of the roof in his front yard. He kept our lawn mowed when we were still enjoying the warm Florida weather. He would approach any strange vehicle that happened to pull into our driveway. This is only a few things that come to mind but I could go on and on. He was a very good and generous man and I will ever be grateful to have been his friend and neighbor.

“ Although I have not spent time with Wayne, Sandy has spoken to myself and our team often of him. He had an amazing influence on Sandy and her family and should be celebrated for his positive impact as a leader, family man, and trusted brother.
