PS

“ I may not be familiar to you, but I knew your son at the University of Kentucky. We were physics lab partners for Physics 1. Working with him was some of the most fun I had when I was in Mechanical Engineering, and it felt like a small world knowing he was from Pendleton County, not too far away from where I was from. We went to a UK game together when he had student section tickets. I was always wondering why we didn't continue being friends outside of the classroom, until I saw the tributes on his Facebook page. I still often think about Garrett and how he was one of my favorite people to be around during my undergraduate years and I don't think I will forget him.

I'm sorry I didn't reach out until now so late, but I didn't feel like it was my place. But I was recently going through old group project paperwork and felt like it was important to get out there how significant of an impact Garrett Spence had on me then.

I hope you're reading this, man. <3 Miss you
