“ Gary was an amazing individual. I have worked at the hospital for the past 5 years and everytime he was there, though he had come back to the hospital, I was ecstatic to see him. It was always a weird experience because you never want to see people return to the hospital, but he always was spirited and positive. He was such a kind, loving, and easy going person who treated me as a friend from the first time I met him. I truly cherished our long talks and many many jokes shared. He was always giving me advise and extending his kindness, something that he didn't have to do. For that I am a better person today. He will be missed dearly. My condolences go out to his family and loved ones.
