“*Jeremy was my neighbor several years ago, and for many years, my "go to car guy". He sure had the knack for turning a wrench. Fixed a problem in my bands equipment van when other mechanics said it could not be fixed. Van still runs today. --- May you rest in piece pal. --- My deepest condolences to all his family and friends.*

“*Brandi and family,  
I have spent hours, days, and even years of my life with this family. I love Brandi and Jeremy who I spent so much time with during my elementary, middle, and high school years with. I lost track with them after school but once I heard about the accident how I was transported back to those days spending time with them, riding in Jeremy's car, or hanging out in Brandi's room just talking the three of us. It just broke my heart. There are no words in the English dictionary that will ever help you with your lose, or help describe your lose. I wish I could be with you on Friday Brandi, I wish I could be there with to help share your grief and take some of that burden for you. I have other commitments but you let me know when you need me and I will call you, or meet you somewhere for lunch.*

*Love Always*
