I met you on a jobsite in Florence almost 20 years ago. We hit it off immediately as friend's. I learned allot from you in the jobsite, how to install freezer panels, direct the crane as to where you wanted them. I was the field welder on that Schwann's Pizza Plant job.

You were bigger than life itself. With your raspy voice, and positivity. I stuck with you for the time I lived down there in Kentucky, and even though I moved back to NY, we'd keep in touch, over the years. When I would come down with Becky I'd make the trip down to see you and your parents.

I know it's been awhile, and you called me early Saturday morning to share with me that you were returning home from Texarkana. I couldn't really talk at the time, and it hurts me that I wasn't able to call you back.

I got the message from Kurtis later that evening that you had passed away.

I'll never forget you and all the Good Times we had. Our paths will cross long down the road, I'll never forget you Old Friend, I'll be making a trip back home soon, too visit your Mom and Dad and to pay my respects to you.

May God Bless you and your family,

I Love You, Brother.

Always,

Matt from NY
